

Churches of Christ Selects GoldCare to Support their Residential and Community Care Services in Western Australia

Box Hill, Victoria – March 19, 2008 – Campana Systems Pty Ltd., market leaders in healthcare management solutions, is pleased to announce that Churches of Christ Homes and Community Services (“the Homes”) in Western Australia has chosen Campana’s award-winning software, GoldCare, as their client management information system.

GoldCare is a versatile healthcare management solution that provides care professionals with streamlined access to information in order to efficiently manage and support residential, community and continuing care. GoldCare’s integrated approach to care management allows multiple sources of data to be accessed through a single interactive interface: client and employee files, assessments and outcomes, rosters, financials and reports.

The Homes operates 21 residential homes, independent living facilities and community support programs throughout Western Australia. The complexity of their business operations required an information infrastructure that would enable centralised data access across all of their client sites. GoldCare meets that need, and will provide the Homes with a single electronic client record for clinical assessments, progress notes and care planning.

“GoldCare will provide the system functionality to assist the Homes to meet its strategic objectives in our residential, independent living and community care sectors and in doing so, help us provide the highest standards of care outcomes”, says David Lyle, Clinical Nurse Consultant - Client Information Systems at the Homes.

“We’re proud that our first partner in Western Australia is Churches of Christ, who are well known for their progressive aged care services”, says Grant Roberts, President of Campana Systems. “We look forward to furthering our partnership with the Homes, and advancing continuing care throughout this region.”

The Homes will implement GoldCare across their sites in stages throughout 2008.

About Churches of Christ

Churches of Christ Homes and Community Services, which operates under Bethanie Care Services, is the largest residential care provider in Western Australia. They are one of the state’s largest overall aged care providers with an extensive community care program, lifestyle retirement villages and apartments, hostels and nursing homes. The Homes gathered up Bethesda Hospital into its managed services in 2007, increasing its focus on a broad range of aged care and health services. Find out more about Churches of Christ Homes and Community Services at www.bethanie.info.

About Campana Systems

Campana Systems develops GoldCare, a leading healthcare technology solution for community, residential and continuing care. An integrated approach to care management and support, and dedication to industry-advancing solutions are just some of the reasons why GoldCare is used by over 150 clients at 500 sites across Australia, New Zealand and North America. www.mygoldcare.com.au
