

The Elmira and District Association for Community Living Selects GoldCare's Staff Manager

Waterloo, ON – February 22, 2008 – Campana Systems Inc., market leaders in healthcare management solutions, is pleased to announce that the Elmira and District Association for Community Living (EDACL) has selected Campana's GoldCare Staff Manager for their staff scheduling and time sheet reporting.

GoldCare's Staff Manager is a full-featured scheduling application. It gives care providers a flexible and efficient way to manage/modify employee schedules, create repeating schedule rotations, review shift histories and track schedule totals. The GoldCare Staff Manager integrates seamlessly with GoldCare Payroll and other external payroll packages. Time sheet data can be exported directly into payroll systems, eliminating the time-consuming task of manually entering data, and reducing data entry errors.

The EDACL has 160 full-time employees that support 120 families throughout the Woolwich, Wellesley and Mapleton townships in Southwestern Ontario. They provide residential, assisted living and vocational services to clients with developmental disabilities; fulfilling these services requires complex staff scheduling and time sheet reporting to employee unions. Also, as they have doubled their services in the last three years, the EDACL needed a scheduling solution that would keep pace with their growth, and meet their future scheduling demands.

"GoldCare's Staff Manager will allow us to maximize our administrative resources by automating and streamlining our scheduling and time sheet tracking", says Greg Bechard, Executive Director of the EDACL. "We anticipate it will help us to become more efficient and productive as it pertains to staff management."

"Although GoldCare is used by community care organizations throughout North America, Australia and New Zealand, we take a special pride in knowing that it will help a local care provider like the EDACL support clients in our own community", says Grant Roberts, President of Campana Systems.

The EDACL will implement GoldCare Staff Manager in the coming weeks.

About the Elmira and District Association for Community Living
