

See the Big Picture | Deliver Better Care | From Anywhere

Manage the entire scope of your Home & Community Care programs with our web-based solution.
Accessible anywhere using any device.

Client, Staff & Volunteer Management

Manage client, staff & volunteer information in one place, increasing productivity & streamlining workflows.

Clinical Management

Focus on the complete client care cycle from service planning, to care delivery, progress & outcome.

Employee & Visit Scheduling

Schedule, assign & track appointments quickly & efficiently to support your clients.

CloudCare 2.0

Financial Management

Save time on financial tasks by managing everything in a single integrated solution.

Reporting

Track & measure outcomes, compile statistics, support decision-making & meet internal and regulatory requirements.

Mobile Workforce Support

Provide field staff real-time connectivity to the information they need to deliver care.

Trusted Home & Community Care Software Partner

30+ years of working with home & community care organizations across Canada, Australia & New Zealand

"As a customer for over 12 years, GoldCare has brought tremendous benefits to VHA. It is very feature rich and provides us with many resources and tools we need to operate our business"

Drew Wesley,
Chief Information Officer,
VHA Home Healthcare
